GitHub: [Github/ShabadGrover](#)

Email: shabadgrover025@gmail.com

Mobile: +91-762692527

SKILLS

Languages:	C++, C, Python
Frameworks:	Numpy, Pandas, Scikit-learn, Matplotlib, Seaborn
Tools/Platforms:	MySQL, Power-Bi, Excel, Jupyter Notebook, VS Code, Blender
Soft Skills:	Problem-Solving, Collaborative Teamwork, Self-Learning Capability, Adaptability

INTERNSHIP

EdiGlobe – Data Science Internship Program Certificate	Jul' 25 – Sep' 25
- Focused on Python development, ML fundamentals, and supervised learning. - Built two applied projects: IMDB Dataset Analysis and Hotel Booking Analysis. - Performed data cleaning, feature engineering, and EDA on real-world datasets. - Applied statistical analysis and visualization to derive insights. Tech Stacks: Python, Pandas, NumPy, Matplotlib, Seaborn, Google Colab, Git	

PROJECTS

Disaster Severity & Impact Prediction Github	Nov' 25 – Dec' 25
- Built a machine learning model to classify disaster severity and predict impact. - Used SVM for classification and regression for impact prediction. - Performed data preprocessing, feature engineering, and model evaluation. - Visualized results using confusion matrix and prediction plots. - Generated insights to support data-driven assessment and prediction.	
Tesla Performance Dashboard Github	Nov' 25 – Dec' 25
- Built an interactive dashboard to analyze Tesla's revenue, profit, and sales trends. - Compared Tesla model performance and regional sales distribution. - Visualized delivery vs production metrics using interactive filters. - Cleaned and modeled data to ensure accurate reporting and insights.	

TRAINING

Data Structures & Algorithms Using C++ Certificate	Jun' 25 – Jul' 25
- Learned core topics including C++, object-oriented programming, algorithmic complexity, and greedy strategies. - Applied concepts to build a complete end-to-end system integrating C++ backend with Bootstrap-based frontend and dynamic user interaction. - Completed a major capstone project demonstrating correct implementation of the greedy approach with tested performance results.	

CERTIFICATES

Project Completion Certificate Ediglobe	Sep' 25
Build Generative AI Apps and Solutions with No-Code Tools Infosys	Aug' 25
The Apprentice Project (TAP) Internship Certificate MentorMe Foundation	Jul' 24

EXTRA CURRICULAR

Participated in Campus Cup (Valorant Tournament) at Lovely Professional University Competed in a university-level e-sports event, demonstrating teamwork, coordination, and strategic thinking.	Oct' 25
Participated in RC Xtreme 3.0 Robotics Workshop Built and raced a fully functional RC car during a 15-hour hands-on workshop organized by Robotics & Intelligent Systems Community (RISC), LPU.	Feb' 24

EDUCATION

Lovely Professional University Bachelor of Technology Computer Science and Engineering; CGPA: 7.61	Phagwara, Punjab Aug' 23 – Present
Pathseekers School Intermediate PCM; Percentage: 80.2%	Beas, Punjab Mar' 22 – May' 23
Pathseekers School Matriculation Percentage: 93.8%	Beas, Punjab Mar' 20 – May' 21
